2021 School Accountability Report Card

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at www.cde.ca.gov/ta/ac/sa/

For more information about the LCFF or the LCAP, see the CDE LCFF web page at www.cde.ca.gov/fg/aa/lc/

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) www.caschooldashboard.org/ reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2021-22 School Overview

At KIPP Iluminar Academy we believe in working collaboratively with our families, we will support students with radical love as they brighten the future with critical thought and courage. Through social-emotional development, cultivating a love of life-long learning, and arts-based experiences, Innovators can have the opportunity to continue to thrive as resilient community members in whichever path they choose.

Cesar Chavez, a hero within our very own community, once said, “Students must have initiative; they should not be mere imitators. They must learn to think and act for themselves—and be free.” At the heart of our academic program is the understanding that students are not empty vessels waiting to be filled, or children that need to be taught to imitate, but that they come with rich experiences and beliefs about this world. We believe that the student and the teacher are partners and that both are participating in the work of discovery and learning. At KIPP Iluminar Academy we have three core components:

1. **Learning:** At KIPP Iluminar Academy our goal is to provide a strong college preparatory program from which each student will develop a love of learning, an ability to think critically, and an expanding curiosity about the world and its people. We consider certain skills to be essential for all students: read avidly, write clearly and coherently, make connections across content areas, and question thoughtfully.
2. **Social Emotional Learning:** At KIPP Iluminar Academy we believe that school is a place where students will grow academically while also growing their ability to learn invaluable skills that help them navigate their way through school as well as their community. We have adopted practices that include using the Second Step curriculum, Playworks, Calm Classroom, and making time for morning meeting each day.
3. **Arts:** At KIPP Iluminar Academy we believe the arts play an integral role in developing the creative, imaginative, and expressive abilities of all children. For that reason we believe that the arts are an essential component of a well-rounded education. While at our school, our students will explore the visual arts, music, and physical education. By ensuring that the arts are a core part of our curriculum, our children matriculate with an ignited imagination.

2021-22 School Overview

About Our School

At KIPP Iluminar we truly believe that it is our job to create classrooms that inspire innovation in our students, not only to prepare our students for college, but also to inspire them to make our world a better place. At the heart of the academic program you will find a belief that learning should be experiential, student-centered, and creative. With this in mind teachers encourage student initiative and ownership, foster dialogue, promote inquiry, and strengthen the critical thinking skills in all students. This will foster innovation, and in turn, students will matriculate from KIPP Iluminar Academy as innovative individuals who will go on to take risks for the good of our collective community.

KIPP Iluminar Academy students will exit the school after fourth grade prepared and inspired to pursue their passion.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: For more information refer to the Updated Teacher Equity Definitions web page at <https://www.cde.ca.gov/pd/ee/teacherequitydefinitions.asp>

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

The KIPP Iuminar Academy campus is inspected monthly for safety and cleanliness. In August of 2015, KIPP Iuminar was moved into a beautiful, brand new facility. Our campus has fully equipped music and dance classrooms and all of our classrooms offer a welcoming and calm environment for all of our students. At this time we will continue to focus on the beautification and upkeep of our campus.

Our facilities have undergone improvements that focus on the health and safety of students and staff. These improvements were a result of COVID-19 and will ensure everyone is healthy and safe while at school. Improvements include:

- Upgrade to MERV13 air filters
- Plexiglass installation in the office, restrooms and classrooms
- Installation of touchless water bottle fillers
- Installation of touchless hand sanitizer dispensers

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2019-2020 data cells with N/A values indicate that the 2019-2020 data are not available due to the COVID-19 pandemic and resulting summative test suspension. The Executive Order N-30-20 was issued which waived the assessment, accountability, and reporting requirements for the 2019-2020 school year.

The 2020-2021 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-2021 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-2021 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-2021 school year to other school years.

Subject	School 2019-20	School 2020-21	District 2019-20	District 2020-21	State 2019-20	State 2020-21

2020-21 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment. The CDE will populate this table for schools in cases where the school administered the CAASPP assessment. In cases where the school administered a local assessment instead of CAASPP, the CDE will populate this table with "NT" values, meaning this school did not test students using the CAASPP. See the local assessment(s) table for more information.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2021-22 Opportunities for Parental Involvement

At KIPP Illuminar Academy, we see our families as valuable partners. We believe that in order to meet our ambitious goals, we need to cultivate our family relationships. We also know that involving families in their child's education will further empower their children to climb the mountain to and through college.

Through the pandemic, opportunities for parent involvement on and off campus have been limited. Our school site council meetings, led by our school Administrative team, provide families with a deep look into school operations and rely on their feedback to make crucial decisions for the entire campus. Cafecito with Mrs. Hernandez, an informal town hall-type meeting in which families can ask our principal questions, has also become a vital part of our family involvement at KIPP Illuminar.

We are committed to working with families to provide the targeted strategies and resources that will best help families to support their child at home to reach their end of year goals. We look forward to re-launching our Family Workshops with individualized focus, all geared towards providing information and resources to families to help their children continue to learn outside of the classroom. Additionally, we hold three mandatory family meetings throughout the year called Achievement Afternoons that are specifically tailored to the needs of each grade level and how families can support their innovators at home.

For more information related to these and other parental involvement opportunities, please contact our Family Engagement Lead, Rachel Cashmere, at rcashmere@kippsocal.org.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

Subject	School 2018-19	School 2020-21	District 2018-19	District 2020-21	State 2018-19	State 2020-21

Expulsions	0.00	0.00	0.02	0.00	0.08	0.00

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-2020 suspensions and expulsions rate data are not comparable to other year data because the 2019-2020 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-2020 school year compared to other school years.

2021-22 School Safety Plan

The school safety and emergency preparedness plan is fully reviewed annually and was last updated and reviewed on October 2021. The safety plan outlines what we do for every emergency situation and details the roles of each staff member. Some things included in the plan are - what to do during an emergency (which includes earthquake, fire, lockdown, or shelter in place), emergency numbers to call if needed, and staff directory. Teachers and staff are provided with a Safety Training once at the beginning of the school year in August, in October before the Great Shake drill, and again in April as a Spring Safety refresher. Students practice monthly during emergency drills. Regular fire, lockdown, and earthquake drills are scheduled so that all students and staff are familiar with the School Emergency Plans. All KIPP Illuminar classrooms are equipped with emergency materials in the event of a fire, lockdown, or earthquake.

In the event of an emergency, families will be notified as soon as possible utilizing the automatic Parent Square notification system. In this event, please make sure to listen to the entire message carefully. It is important for all families to keep their number up to date with the school office so emergency phone calls are received. The student Emergency Card will be used to release students in case of an emergency. Overall staff at KIPP Illuminar understand our safety plan and know what to do during emergency situations to ensure student safety is always a priority.

2020-21 Types of Services Funded

KIPP Illuminar Academy offers several programs and services to assist and support our students and families. Our instructional program provides core subject and enrichment activities for 560 students, grades TK to 4th during the 2020-2021 school year. Core subjects include literacy, math, science, and social studies.

KIPP Illuminar Academy offers enrichment classes to all our students to ensure they are exposed to vast subjects. All our students have dance, music, art, and Spanish class three times a week. These classes enhance student learning and add a distinctive aspect to the curriculum they currently have. In dance our students learn basic dance techniques and even get exposed to ballet. In art class our students develop skills to paint, draw, color and use their creativity to create works of art. In Spanish, our teacher integrates grammar and writing skills to be able to communicate in both oral and writing in the Spanish Language.

KIPP SoCal offers an ASES funded after school program to assist and support our students. The goal of our program is to continue the support students are receiving during the regular school day in a safe constructive environment during after school hours. Our program provides literacy and enrichment activities for grades K to 4th. Every student in our program participates in a daily literacy and enrichment component. Our literacy programs provide tutoring and homework help in the core areas of reading, language arts, mathematics, and science. Students use software to make sure they are reading and completing math at their individual levels. Students participate in at least one hour daily in a literacy element. Our educational enrichment programs align with the school's academic program and include, but are not limited to, recreation and prevention activities such as dance, youth development strategies like performing arts, and music. Other enrichment activities are implemented based on the students' needs and interests.

Professional Development

KIPP Illuminar Academy is grounded in the belief that teachers are the key levers that boost student achievement; thus quality professional development for teachers to help KIPP students excel academically is essential.

Teachers participate in professional development one afternoon per week for 2-3 hours when students have a minimum day. This time is used to analyze data from interim and formative assessments, and to address instructional trends going on in the classroom and ways in which the students can be better served. The interim assessment results are analyzed every 6-8 weeks, whereas the results of formative assessments are analyzed bi-weekly. Topics include improving check for understandings, incorporating literacy across all contents, or enhancing differentiation for English Learners.

Professional development during distance learning has been delivered through weekly team internalization meetings, one-on-one meetings, and live coaching done during observations. Development has focused on phonics execution and alignment of our new curriculum, Open Court Reading. We have also done development around student engagement strategies for remote learning and reading intervention.

Additionally, differentiated meetings are content-level and grade-level department meetings that each happen once a month. Those occur after the weekly school-wide meetings. In content meetings, teachers in the same content area meet to review each other's assessments and provide instructional support. As a content group, they also have several opportunities throughout the school year to conduct excellent school visits in an effort to improve their instructional practices for their students.

Grade-level department meetings led by the Grade Level Facilitator provide teachers with an opportunity to work out logistical details for upcoming events, discuss the needs and academic progress of individual students, and implement school-wide systems.

Another integral component of professional development at KIPP Illuminar Academy is the observation-debrief cycle (coaching cycle). The School Leader, Assistant Principal or Dean formally observes teachers. Following the observation, the School Leader, Assistant Principal or Dean and teacher will discuss student learning based on student data and notes from the observation.

In addition to KIPP Illuminar Academy's school-wide professional development, teachers and administrators benefit from regional professional development opportunities facilitated by KIPP SoCal Schools. Several times per year, teachers and staff from all of KIPP SoCal's schools in South and East Los Angeles gather for an intensive day of workshops, trainings, and networking led by internal and external facilitators.
