2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

KIPP Academy of Innovation teaches the academic skills, builds the intellectual habits, and fosters the character traits necessary for our students to take risks and innovate. In the pursuit of excellence in middle school, high school, college and beyond, our Innovators will transform their lives, their communities, and the world around them. We are a community that validates and supports all student identities and strengths. We foster a genuine love of learning by creating a collaborative culture of inquiry and learning through discovery. By building confident critical thinkers ahead of their own time, our students are courageous leaders who unapologetically try new things, take risks, and stand for change in the face of adversity.

At KIPP Academy of Innovation we believe in the relentless pursuit of excellence beyond college for all children. We believe that excellent schools and strong partnerships transform communities in preparation for the 21st century and beyond. We believe that by educating the whole child, our students are empowered to transform their lives, the communities they live in, and the world at large. We foster a genuine love of learning by creating a collaborative culture of inquiry and learning through discovery. By building confident critical thinkers ahead of their own time, our students are courageous leaders who unapologetically try new things, take risks, and stand for change in the face of adversity. With rigorous literacy based instruction as the gateway to learning, interdisciplinary STEAM (Science, Technology, Engineering, Arts, and Mathematics) curricula, and a deep culture of character development, our students are empowered as 21st century learners and leaders to innovate and compete in the global arena.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

2020-21 Teacher Preparation and Placement

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

In January 2019 KIPP Academy of Innovation moved into a new and permanent facility in East Los Angeles. Our school site provides a safe, warm, joyful, and inviting space for students, families, teachers, faculty, members of the community, and stakeholders. Our main office, classrooms, play area, multipurpose room and shared spaces are clutter-free, clean, and organized. All adults on site play an active role in ensuring KIPP Academy of Innovation is a clean and operationally well-maintained middle school. By proudly representing our school's and students' values, KIPP Academy of Innovation serves as a source of pride and inspiration for the East Los Angeles community.

Due to COVID-19, the following facility improvements were implemented to ensure the safety of our school's community: upgrade to MERV13 air filters, plexiglass installed in all student restrooms, installation of touch-less water bottle fillers, installation of touch-less hand sanitizer dispensers throughout the campus, and the rearranging of classroom and office furniture.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	46	N/A	41	N/A	47

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

All families are encouraged to have an active role at KIPP Academy of Innovation, as families play an important role in the lives of their children and our school's community. During the regular school year families are invited to participate in various school events and meetings throughout the school year, such as Coffee with the Administration Team, parent education workshops, Student-Led Conferences, and Team & Family activities. Families are also offered opportunities of school leadership via their participation in our School Site Council meetings and English Learner Advisory Committee parent meetings.

When families were not able to visit our site due to COVID-19, members of our school community were able to stay connected with our school via virtual meetings and workshops.

For more information related to these and other parental involvement opportunities, please contact our Family Engagement Lead, Ms. Villatoro, at gvillatoro@kippsocal.org.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	0.61	0.44	2.45
Expulsions	0.00	0.02	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

2022-23 School Safety Plan

KIPP Academy of Innovation's Comprehensive School Safety Plan for the 2022-23 school year was reviewed and updated on October 2022. The school's safety plan outlines what each member of our team will do in case of any type of emergency. All aspects of the plan - descriptions of emergency response roles, types of evacuations, evacuation and drill procedures, location of emergency supplies, emergency signals, and evacuation routes - are reviewed and discussed with all staff members throughout the school year as part of our team's Professional Development sessions.

We practice our safety procedures via monthly emergency drills and we have onsite emergency supplies for the entire school, which include emergency lockdown kits in every classroom. KIPP Academy of Innovation also participates in the yearly CA Great Shake drill where we initiate our Incident Command Center and teams. During this drill we practice our search and rescue efforts, set up our first aid station, and practice our reunification system with parents/guardians.

2021-22 Types of Services Funded

KIPP Academy of Innovation offers an after-school program via our Expanded Learning Opportunity Program. The goal of our program is to continue the support students are receiving during the regular school day in a safe, constructive environment during after school hours. Our program provides literacy and enrichment activities for 115 students, grades 5 to 8. Everyday students in the after-school program receive academic assistance in the core subject areas of Reading, Language Arts, Mathematics and Science. Students in the program also participate in academically-focused field trips and extracurricular activities such as drill, cooking, travel, photography, music, sports, and art

Professional Development

Professional development begins with an intensive KIPP Academy of Innovation Summer Professional Development for all teammates. The goals of this year's summer professional development are:

1. Develop as a school-team by internalizing and showing ownership of Innovation's mission, vision, core beliefs and character strengths in action. Understand the impact every system, structure, and activity has on each other, our students, their families, and their future.
2. Develop as liberatory educators by understanding how culturally responsive teaching aligns to our school vision and priorities.
3. Internalize and develop school-wide and grade level systems and operations and how they contribute to an inclusive school culture.
4. Develop strong grade-level and content teams to drive culture, rigorous, data-driven instruction, and teacher growth and collaboration
5. Ensure team members understand all health and safety protocols

At the end of summer professional development, all KIPP Academy of Innovation team members have a clear understanding of the 'why' behind KIPP Academy of Innovation's vision, mission, and core values. By participating in these sessions, our KIPP Academy of Innovation team has a stronger understanding and appreciation of the beauty, value, and richness of our school community. Professional development throughout the year continues to reinforce and build upon the momentum from the summer Professional Development. Logistically, KIPP Academy of Innovation Professional Development occurs on a weekly basis on Mondays from 1:30-4:00p.
